# HOW TO ENSURE A PRODUCTIVE MEETING

Here are some tips to maximize our time:

## Are all voices being heard?

*Make room for all perspectives to be considered and valued.*

## Be candid and compassionate.

*Encourage honest feedback, foster healthy debate, and show empathy.*

## Be mindful of tone.

*Sometimes it's not what we say, but how we say it that makes the most lasting impact.*

## Are you asking enough questions?

*Dig deeper to gain more information and understanding to avoid making assumptions.*

## Welcome new ideas.

*Just because someone's idea or suggestion is different, doesn't mean it's wrong.*
