

ASA Workforce Monitor[®]

Covid-19 Child Care Challenge
American Staffing Association

August 2021

Research Method

This survey was conducted online within the U.S. by The Harris Poll between June 10 and 14, 2021 on behalf of the American Staffing Association of 2,066 U.S. adults ages 18+, including 1,070 parents and 605 parents of children under 18.

Figures for age, sex, race/ethnicity, education, region and household income were weighted where necessary to bring them into line with their actual proportions in the population. Propensity score weighting was used to adjust for respondents' propensity to be online.

All sample surveys and polls, whether or not they use probability (purely random) sampling, are subject to multiple sources of error which are most often not possible to quantify or estimate, including sampling error, coverage error, error associated with nonresponse, error associated with question wording and response options, and post-survey weighting and adjustments.

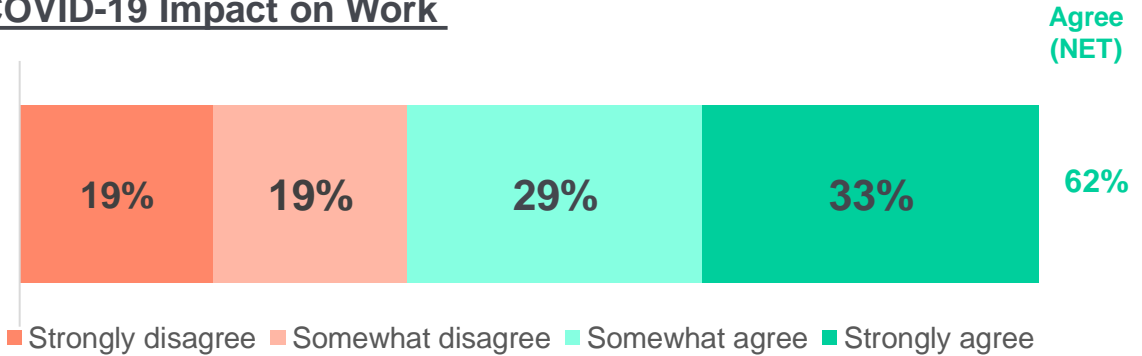

Note when reading tables: Circles on data points represents a statistical significance

Parents of Kids Under 18 Say Covid-19 Child Care Duties Have Hurt Career

COVID-19 Impact on Work

My childcare/virtual schooling responsibilities during the COVID-19 pandemic have negatively impacted my ability to get ahead in my job/career.

BASE: PARENT OF CHILD UNDER 18 (n=524)

Q4 How much do you agree or disagree with each of the following statements?

People of Color are More Likely to Say Child Care Duties Have Been a Career Obstacle During Covid-19

Somewhat/Strongly Agree

	Parent of Child Under 18		Not Parent of Child Under 18	
My childcare/virtual schooling responsibilities during the COVID-19 pandemic have negatively impacted my ability to get ahead in my job/career.	62%		36%	
	Male Parents		Female Parents	
	60%		51%	
	Hispanic/Latino Parents	Black/African-American Parents	White/Caucasian Parents	
	62%		70%	51%
