

# A GREAT FIRST DAY.

HIRING SIMPLIFIED. ONBOARDING OPTIMIZED.

## IMPROVE THE CANDIDATE EXPERIENCE

Give candidates a world-class experience with a mobile-first approach, a single location to track their onboarding requirements, and the least amount of clicks necessary. A great experience up top means happier employees and fewer no-shows.

## TIGHTEN ONBOARDING OPERATIONS

Every minute of lost productivity can hurt a business. By automating onboarding and integrating your workflow with all your key staffing technologies and workflows — your ATS, background checks, e-Verify, etc. — you can streamline the process and ensure you didn't miss a step.

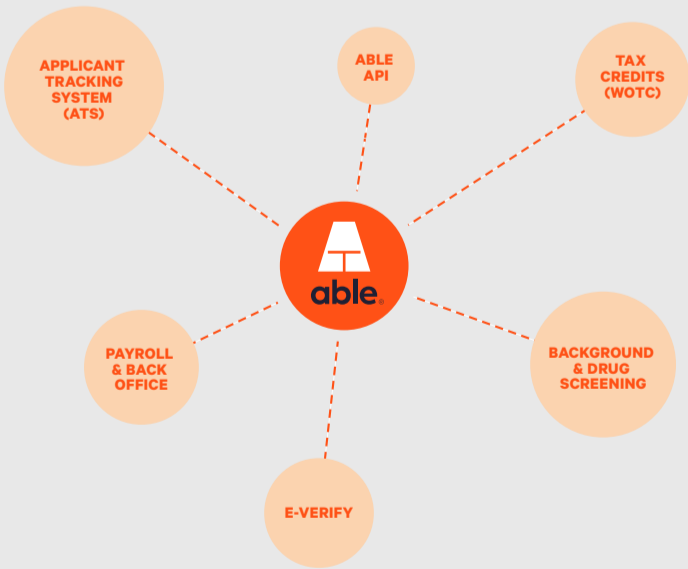

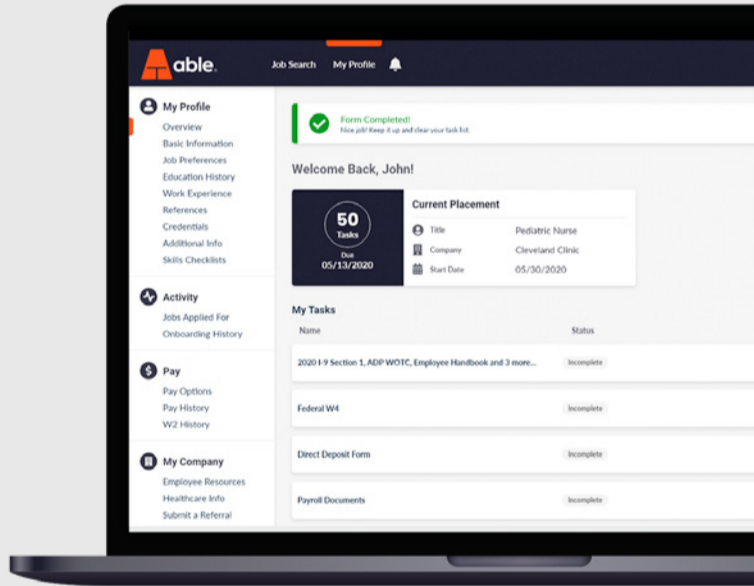

## FOCUS ON RECRUITING

Ditch the busywork, and focus on hiring the right people and setting them up for success. Onboarding automation means fewer mistakes, while recruiters have time to build better relationships with candidates and take on more accounts, giving them back 40% of their day.

## MULTIPLE SYSTEMS. MULTIPLE WORKFLOWS. ONE CANDIDATE EXPERIENCE. **FINALLY.**

### CANDIDATE EXPERIENCE

Able empowers you to deliver the ideal onboarding journey, from a great first impression to a great first day. It offers candidates a modern user experience, a centralized location for tasks, auto reminders, and an easy way to sign documents.

### ONBOARDING AUTOMATION

Every role is unique and Able enables recruiters to configure entire onboarding workflows, eliminate repetitive tasks and reminders by triggering third-party activities, and allows you to feel confident in your processes with straightforward, trackable form management for both state and federal requirements, e-signatures, I-9s, and e-Verify.

## SEE WHAT OUR CUSTOMERS HAVE TO SAY.

“As soon as we rolled out Able, the feedback was extremely positive. Able has been described as a “Game-Changer” by our managers, and we have reduced onboarding time by more than 50%.”
