

About TempWorks Software

Founded in 1997 and headquartered in Minnesota, TempWorks Software® has grown from a start-up to a premier provider of staffing software solutions and payroll services for temporary staffing and recruiting companies. With an all-in-one customizable front and back office system and an open API, TempWorks delivers ground-breaking solutions to any device.

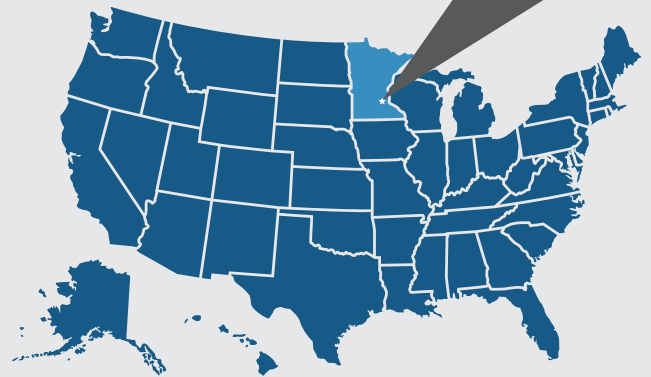

Our Mission and Values

Built on a solid platform of integrity and dedication to excellence, we strive to create trusting partnerships with our clients, provide the highest level of service and deliver the technology our clients need to succeed and grow. With a commitment to the technological advancements of the staffing industry, TempWorks has served more than 500 clients nationwide, totaling more than 10,000 users.

When you partner with TempWorks, our experienced professionals work tirelessly to make you feel like part of the team. From developing unique solutions for each client, delivering superior customer service, promoting a healthy work-life balance for our employees, or giving back to the local community, TempWorks is founded on solid values that drive our actions and progress every day.

*Headquartered in Minnesota,
we have served more than
500+ clients nationwide.*
