Transform Your Business with Innovative Software Solutions

From online application portals to payroll, invoicing, and flexible reporting, TempWorks Software® delivers staffing software solutions to any device. No matter how you partner with us, we invest in building quality partnerships and providing dedicated support service.

Recruiting and Onboarding

Grow your candidate pool and connect with your candidates anywhere, anytime.

- Beyond™: Mobile-optimized and browser-based ATS and CRM front office solution
- HRCenter™: Onboarding that's mobile-friendly, customizable, paperless, and fully integrated
- Job Board integrations, including Indeed
- Direct integrations for mass emailing and texting

Streamlined Operations

Increase revenue with real-time data about your business.

- Sales Pipeline Management
- VMS/MSP Management
- 175+ real-time reports
- Sales and productivity analysis reports

Employee Engagement

Provide easy access to job and profile information with the Buzz™ mobile app that your employees install on their phone. Buzz gives employees the ability to:

- Accept job offers in-app via job offer push notifications
- View assignment details and get turn-by-turn directions to the job site
- Punch in and out at the worksite using geofencing and facial recognition validation
- Connect to recruiters instantly with live chat
- Manage availability with direct access to job boards

Increased Sales and Client Satisfaction

Enhance your relationship with clients and increase sales with access to real-time information in WebCenter.

- Boost visibility by allowing your clients to run reports and view their invoices in their online portal
- Give clients the ability to create and submit group timesheets and approve time with online timecards
- Increase business by enabling your clients to submit order requests and review candidates you have submitted
- Streamline feedback from clients with automated performance evaluations

Trusted Back Office Technology and Services

Software built with back office first means you have the most efficient and accurate back office tools and technology.

- Online and mobile time keeping
- Time clocks and On-Site Time Clock App™
- Payroll, invoicing, and A/R all within one system
- ACA management
- Payroll processing and funding services through Lone Oak Payroll®
- W-2 and 1095 processing and printing services

Dependable Integrations to Support your Strategy

TempWorks understands the capabilities you need to stay competitive. We take care in partnering with the best vendors in the industry to help you achieve your business goals. From background screening to voice/text messaging, tax credits, and more, we've got you covered.
